Final Draft of the Rewrite of DCID 1/16,
New Title "Security of Automatic Data
Processing Systems and Networks" w/Att.

1. Confirming our telephone conversation, the DDA con-
curs in the four referenced documents proposed by the USIB
Security Committee. This concurrence includes endorsement of
modifications recommended by the Office of Security where such
is the case.

2. As mentioned to you, we feel that in most cases DDA
concurrence on such documents is pro forma because of the
Directorate's representation on the Committee through the
Office of Security. Nonetheless, it is requested that pro-
posed documents continue to be submitted to the undersigned
for review so that the DDA will have an opportunity to make
a direct input in any case where it is appropriate.

It is requested that the attached draft of DCID 1/16, "Security of Automatic Data Processing Systems and Networks" be coordinated within the Directorate for Administration. This paper was previously coordinated during February 1975 titled as "Intelligence Community Policy for the Security of Computer Operations".

It is requested that your comments be submitted prior to 10 February 1976. This short timing is necessary for the Chairman, USIB Security Committee, to meet the desire of Mr. Colby which is to "Complete the ongoing review of DCID 1/16 . . . by February 1976."

[redacted] Chief, Information Systems Security Group, Office of Security, is the focal point for this coordination within CIA. It is requested that you refer any comments, questions, or discussion regarding this paper to [redacted] Room 1E-4838, Hdqs. Bldg. If major change to this draft is desired by your Directorate, please notify [redacted] telephonically so that appropriate actions may be initiated both within the Agency and Intelligence Community.
